ConvergeFlow

REVENUE CYCLE MANAGEMENT

Your revenue cycle, fully managed.

From verified coverage before the visit to a reconciled account after it.

For dental and medical practices

WHY CONVERGEFLOW

We don't just report the problem. We fix it.

- **Fully managed service**
  Our team owns the work, not just a dashboard.
- **Built into your PMS**
  Starting with OpenDental, results land where staff already look.
- **Evidence for every check**
  Portal captures, reference numbers and timestamps, stored securely.
- **People behind the automation**
  Specialists resolve portal changes, MFA and exceptions.

01 BEFORE CARE

Clean claims start before the patient arrives.

Automated insurance verification

Eligibility and benefits checked across payer portals, then written back to OpenDental with evidence.

- Deductibles
- Annual maximum
- Coverage %
- Frequencies
- Waiting periods
- Payer order

Registration & demographics

Accurate identity and insurance on file, no duplicate accounts.

Referrals & prior authorization

Requirements checked; approvals tracked against the service.

Patient estimates

Clear cost conversations, without promising final amounts.

02 AFTER CARE & SUBMISSION

Every service captured. Every claim scrubbed.

Documentation & coding review
Codes supported by the record, with compliant provider queries for gaps.

Charge capture
Encounters reconciled against charges so nothing goes unbilled.

Claim scrubbing
Required fields, code edits and payer rules checked before release.

Electronic submission
Payer-approved channels, with proof of every transmission.

Acknowledgments & claim status
Rejections corrected fast; open claims followed to a decision.

Every handoff gets an owner and a documented status.

03 PAYMENT & RESOLUTION

Paid accurately. Closed cleanly.

Payment posting
Remittances matched to deposits; every adjustment traceable.

Secondary billing
Coordination of benefits handled before patients are billed.

Denials & appeals
Root cause found; corrected claim or appeal filed on deadline.

A/R follow-up
Aging worked by priority, every payer contact documented.

Patient billing & refunds
Clear statements, verified balances, credits resolved.

REPORTING YOU CAN ACT ON

Days in A/R · Denial rate · Net collection rate · Verification success by payer

GETTING STARTED

Live in four steps

1. **Connect OpenDental**
   Secure access to appointments and insurance data.

2. **Share payer credentials**
   Encrypted in our vault with role-based access.

3. **Map your payers once**
   Each carrier routed to the right workflow.

4. **Go live**
   Verifications run on schedule, ahead of every visit.

Encrypted credentials · Full audit trail · Role-based access to evidence · Minimum-necessary PHI
